CHINA HAS THREE CHANCES TO WIN THE WAR, SAYS GEN. PAI CHUNG-HSI

World Pressure May Be Used Against Japan

KWEILIN, FEB. 20 (CENTRAL)—THE POSSIBILITY FOR CHINA TO WIN THE FINAL VICTORY IN THE CURRENT WAR WAS EXPLAINED BY GEN. PAI CHUNG-HSI, DIRECTOR OF THE GENERALISSIMO'S SOUTH-WEST PROVISIONAL HEADQUARTERS, AT A RECEPTION TO A GROUP OF CULTURAL LEADERS AT AN UNDISCLOSED PLACE YESTERDAY.

THE WELL-KNOWN CHINESE STRATEGIST OPINED THAT IN PROTRACTED WARFARE CHINA HAS THREE CHANCES TO WIN:

- FIRST, to drive out the invaders through self-rejuvenation and strengthening;
- SECOND, to bring about Japan's collapse by draining her man-power and material resources; and
- THIRD, to wait for a more favourable turn in the international situation when the full pressure of the world may be brought to bear upon Japan.

Gen. Pai said that either of these chances is highly probable as evidenced by the course of events.

The Japanese serious setbacks in Szechuan, North Hupeh, North Hunan, South Kwangsi and North Kwangtung, the Kwangsi General pointed out, indicated the gradual weakening of Japan's military force. The largest number of troops which Japan can mobilise is between 70 and 80 Divisions. Already over 50 Divisions have been mobilised. Formerly reinforcements were able-bodied men in active service, but those recently sent to China are mostly reservists either over or below age.

CHINA'S STRENGTH
In contrast to Japan's dwindling military strength China's fighting force, Gen. Pai declared, has been greatly increased in the course of the war and by virtue of the experience gained in the field it has made great improvements in its tactics.

Economically, Gen. Pai stated, the war has been an enormous strain upon the limited resources

of Japan, which was already hard up financially even before the war. Her war expenditure has now exceeded 20,000,000,000 yen and her loans will amount to as much as 24,000,000,000 yen in March.

CRITICAL SITUATION

The imbroglio caused by the speech by Takao Saito, member of the Minseitō Party, in the Diet on Feb. 3 betrayed the anxiety of the Japanese people over the critical situation.

Gen. Pai declared that Japan is fast heading for economic bankruptcy. Hampered by her economic difficulties, the Japanese Army can occupy Chinese cities but can not hold them long. In the end it will experience the same defeat as Germany did in the last World War and Napoleon in the Moscow expedition.

MORE ISOLATED

Diplomatically, Japan will become more and more isolated. The day will come when the peace-loving Powers will present a common front against Japan and apply sanctions against her, General Pai predicted.

However, Gen. Pai warned that it would be a big mistake for the Chinese to hope for quick victory. Only a long bitter fight to the end will bring about China's ultimate victory.

Referring to recent hostilities in South Kwangsi, Gen. Pai said that fighting was in favour of the Chinese troops. He regretted that the Japanese had not penetrated deeper into the province.

Severe Blows Inflicted On Japanese

KINHWA, Feb. 22 (Central)—Severe blows have been inflicted upon the Japanese who crossed to the south bank of the Chientang River, in East Chekiang.

Japanese units pushing down the Chekiang-Kiangsi Railway from Siaoshan have been defeated in the vicinity of Chien-shan, 14 and half miles south of Siaoshan, and are fleeing northward.

The Japanese on the west bank of the Puyang River, a tributary of the Chientang, have also been hurled back.

The Chinese, latest military despatches indicate, are steadily converging on Siaoshan.

To the north-east of Siaoshan, the Chinese have recaptured An-chang and Shunli. Kanshan and Chien-shan have also been cleared of Japanese troops, who have been pushed back to the Chientang River.

SEESAW BATTLE

ON THE SOUTH KWANGSI FRONT, Feb. 22 (Central)—A seesaw battle is raging in the area between Santang and Ssutang on the Nanning-Pinyang highway.

JAPANESE PRISONERS

ON THE SOUTH FUKIEN FRONT, Feb. 22 (Central)—It is reported that about 80 Japanese and puppet soldiers were captured and 200 surrendered upon the Chinese recapture of Tunshan Island, off the south Fukien coast, 55 nautical miles, south-west of Amoy, recently.

Dark Days For Dutch Shipping

AMSTERDAM, Feb. 22 (Reuter)—Dismay and indignation are felt in the latest disasters of Dutch ships caused by the war.

In addition to the Tara Denhaag, the trawler Feiten was mined off the Dutch coast.

Since the start of the war, Holland lost 14 merchantmen and two naval vessels owing to mines and torpedo action.

The newspaper Maasbode says: "These are dark days for Dutch shipping. Apart from the valuable ships and lives sacrificed, the question of cargoes lost is giving rise to growing concern."

The Tara Denhaag was carrying grain and petroleum, which commodities are of primary importance to Holland, and this aspect of the matter is beginning to engage the serious attention of the Dutch authorities.

CHUNGKING, Feb. 22 (Reuter)—The United States Ambassador, Mr. Nelson T. Johnson, arrived at Kunming yesterday afternoon by train from Hanoi.

After a short stay at Kunming of probably of one or two days, he will proceed to Chungking by motor car.

"Equality Of Opportunity For All" Only Foundation For Lasting World Peace, Declares Hon. Mr. S. H. Dodwell

ECKFORD APPEAL HEARING ON FEB. 27

SHANGHAI, Feb. 22 (Reuter)—It is learned that the appeal of Private Eckford, of the Seaforth Highlanders, on against the death sentence passed on Jan. 11 for the murder of Sergeant Davis, of the same regiment, on Nov. 4, 1939, will be heard by the High Court here on Feb. 27.

The Court will consist of Sir Alan Mossop, Judge of H.M. Supreme Court for China, Judge P. Grant Jones, Assistant Judge and Sir Atholl MacGregor, Chief Justice of Hongkong, who is coming here specially for the trial.

NAZI PAPER'S ATTACK ON BELGIUM

LONDON, Feb. 22 (Reuter)—The National Zeitung, Essen, Field-Marshal von Goering's mouthpiece, attacks Belgium because a Belgian company purchased eight American ships, says the German wireless.

The newspaper declares that the Belgian Government had sanctioned the transaction, which favours Britain and France, and is destined to evade the American Neutrality Law to the advantage of the Western Powers.

The purchase of the ships, which will ply between New York, Belgium, England and France, became known on Feb. 15.

CASUALTY LIST OF H.M.S. DARING

LONDON, Feb. 22 (Reuter)—The Casualty List of the destroyer Daring gave the names of nine officers, including Commander S. A. Cooper. It is stated that 147 others are missing and are believed to have been drowned.

The Heinrich Jessen which was launched by Mrs. J. H. Jessen at the Kowloon Docks yesterday at 6.30 p.m. The ship has been built to the order of Rueder M. Jensen A/S, Aabenraa, Denmark and is of 3,200 tons.

Danish Steamer Launched At The Kowloon Docks

THAT "EQUALITY OF OPPORTUNITY FOR ALL" WAS THE ONLY FOUNDATION WHICH LASTING WORLD PEACE CAN BE BUILT, was emphasised by the Hon. Mr. Stanley H. Dodwell, Chairman of the Board of Directors of the Hongkong and Whampoa Dock Co., Ltd., at the launching of the s.s. HEINRICH JESSEN at the Kowloon Docks yesterday evening.

THE CHRISTENING CEREMONY WAS PERFORMED BY MRS. J. H. JESSEN, THE WIFE OF THE MANAGER OF THE HONGKONG OFFICE OF JESSEN AND CO.

The Heinrich Jessen is a 3,200-ton single-screw passenger and cargo vessel and is built to the order of Rueder M. Jensen A/S, Aabenraa, Denmark.

There was a large gathering present on the stage when Mrs. Jessen, with a silver mallet, sent the new vessel gracefully on her way into the water.

At the reception held after the ceremony, the Hon. Mr. Dodwell, presiding, proposed the toast to the Heinrich Jessen and its Owners. With Mr. Dodwell at the main table were Mr. and Mrs. J. H. Jessen and Mr. E. Cock, M.B.E., M.L.C., M.I.N.A., Chief Manager of the Hongkong and Whampoa Dock Company.

HON. MR. S. H. DODWELL

Hon. Mr. Dodwell said, in part: The Heinrich Jessen is the highest class of China Coast; the summation of Messrs. Jessen's 70 years' experience of trading on the China Coast. Built to Lloyd's classification rules and under their survey, the embodies also all the latest safety requirements of the Hongkong Government as set out in what are known as the Shima Rules as well as satisfactory Danish Governmental requirements in all respects.

She will be propelled by engines using superheated steam and fitted with a Götaverken Turbo Compressor to get the utmost power and efficiency out of the steam generated in her two Scotch boilers.

The Dock Company secured this valuable order largely through the influence of my old friend and colleague on the Dock Board, Heinz Jessen, who was himself "launched" in Hongkong.

When I heard that the name of this ship was to be the Heinrich Jessen I wished that it might have been named "Heinz" after the Hongkong representative of the Jessen family, for then the Dock Company could have looked forward in pleasant anticipation to the orders for the other 56 varieties!

Some of you who have so kindly come in response to our invitation today may have noticed that the last two public launchings we have had were of ship which will wear the ensigns of Norway and Australia. This ship will fly the Danish emblem.

SUSPECTED MURDER IN PINGSHAN

Believed to have been strangled to death, the body of a woman, later identified as Liu Mui, 32, was discovered by villagers in a match-shed in the Chinese Garden City, Pingshan, about 10 o'clock yesterday morning.

Inquiries made have so far failed to bring out any motive for the crime. Police investigation is proceeding.

Two German Bombers Shot Down

LONDON, Feb. 22 (Reuter)—Two German raiders were brought down this morning.

The Air Ministry announces that an enemy aircraft was shot down by R. A. F. fighters off the north-east coast shortly after midday.

The second Heinkel was attacked by Spitfires of the Coastal Command and crashed on land near Saint Abbs Head.

ABBEY SERVICE FOR LATE LORD TWEEDSMUIR

LONDON, Feb. 22 (Reuter)—The Archbishop of Canterbury officiated at a simple memorial service for the late Lord Tweedsmuir at Westminster Abbey this morning, assisted by the Presbyterians, Dr. Archibald Fleming, who read the Lesson.

A large congregation included the new Lord Tweedsmuir, who is an officer in the Canadian forces, and other members of the family, also a majority of the members of the Cabinet, headed by the Prime Minister, Mr. Chamberlain.

Lord Clarendon represented the King while Canada was represented by the High Commissioner, Mr. Vincent Massey, the former Governor-General, Lord Bessborough, and thirty-officers and details of the Canadian troops.

The High Commissioners of other Dominions were also present and also the Speaker of the House of Commons, Earl Baldwin, Gen. Sir Ian Hamilton, the Belgian Ambassador and Mr. J. H. Thomas (for the Dominions Secretary).

Armaments For Trawlers Justified By Results

LONDON, Feb. 22 (BWS)—The provision of defence armaments for fishing and merchant ships, which had been forced on Britain because of air attacks on trawlers and similar vessels, has already been justified by results.

Both on Monday and Tuesday an air offensive was launched against fishermen and on each day the Nazi raiders met with an unexpected welcome from machine-guns.

Although the German airmen succeeded in wounding three fishermen it will be interesting to notice whether these raids will be persisted in now that immediate resistance is forthcoming. Hitherto the Nazis were comparatively safe from interference in "tip and run" raids having all the sea to choose from and were usually able to get away before British fighters have a chance of appearing on the scene.

GERMANY BARS RED CROSS AID FOR POLAND

NEW YORK, Feb. 22 (Reuter)—A Washington despatch to the New York Times says that Germany has effectively barred Red Cross aid for Poland except in Warsaw, the Governor-General of the district states.

This was revealed when Mr. Norman Davis, Chairman of the Red Cross, announced that an agreement was made with Germany by which representatives would be permitted to supervise the distribution of \$400,000 worth of medicines and warm clothing, from the United States, by the Polish German Red Cross.

INTEGRAL PART
The Germans hold that other parts of German Poland have become an integral part of the Reich and cannot be entered by American workers.

The Russians also refused any concessions permitting the entrance of Red Cross supervisors in Soviet-occupied Poland.

Because of the failure to permit unrestricted deliveries of Red Cross supplies, the feeling is stated to be growing in Washington that the Nazis are eliminating any Poles capable of leadership.

GERMAN N.C.O.'S CAUGHT

PARIS, Feb. 22 (Reuter)—A war communiqué states that east of the Moselle an enemy raid was driven back. Two German non-commissioned officers were made prisoner by one of our patrols.

CHUNGKING BEFLAGGED FOR ENTHRONEMENT OF THE 14TH DALAI LAMA

CHUNGKING, Feb. 22 (Reuter)—All Chungking was beflagged today on the occasion of the enthronement of the fourteenth Dalai Lama.

Newspapers this morning published pictures of the new Dalai Lama, his parents and the Prince Regent of Tibet.

The Mongolian and Tibetan Affairs Commission of the Chinese Government released a lengthy article giving the history of Chinese and Tibetan relations and stressing the friendly attitude on the part of the Tibetan Regent towards Chungking and also the policy of the Chinese Government to advocate equity among the races and freedom of religion.

Generalissimo Chiang Kai-shek, Dr. H. H. Kung, Minister of Finance, and Dr. Sun Fo, President of the Legislative Yuan, telegraphed the new Dalai Lama congratulating him on his enthronement.

A Buddhist prayer-meeting will take place at Chang'an, the famous temple here, when prominent Government, Party, military and public leaders are expected to be present to celebrate the enthronement.

One hundred and eight Buddhist monks will offer prayers at a special ceremony to be held on the top of Mount Omel, the famous sacred mountain in west Szechuen.

Harsh German Treatment

LONDON, Feb. 22 (BWS)—After months in a Nazi gaol enduring the harshest treatment and undernourishment, eight British women and two boys arrived back in England last night.

Three of the women were English governesses who were teaching Polish children when the Germans began to bomb Cracow.

One woman had a paralysed leg but no doctor was allowed to see her while in gaol.

RECORD ATTENDANCE AT H.K.R.A. MID-WEEK SHOOT: OLD HANDS REVEL IN ADVERSE CONDITIONS

W.A. Tansley's Good Display At Revolver Shooting

One-hundred-and-twenty-three members were present on Wednesday, at the H.K.R.A. shoot, a record number for mid-week shoots this season. The weather, however, was most unkind with a drizzling rain, and very poor visibility at 500 and 600 yards.

Nevertheless quite a number of the old hands seemed to glory in the adverse conditions and made good scores.

"Rio" Opens At King's Today

The discovery of a new star by some eminent astronomer may stir his fellow associates but the great body of his fellow citizens probably won't get worked up about it. But a new movie star like Sigrid Gurie is something else. You're going to hear much of her. She plays the feminine lead in the Universal picture, "Rio," which opens today at the King's Theatre. Basil Rathbone and Victor McLaglen are the stars.

"Rio" is a narrative of modern people set in the world they inhabit, each with their own peculiar philosophies. It is, in a breath, the story of a glamorous Farlan case singer. She is married to a wealthy crook but falls in love with a restless American engineer in Rio.

Sigrid Gurie, Robert Cummings and Basil Rathbone in Universal's production of "Rio," now showing at the King's Theatre.

"Only Angels Have Wings" Opens At Majestic Tomorrow

A drama whose picturesque settings in the tropical Andes Mountains of South America lends increased credence and vividness to an exciting tale of adventure and romance, Columbia's "Only Angels Have Wings" opens tomorrow at the Majestic Theatre.

Cary Grant and Jean Arthur are co-starring in this tense, fresh and completely enjoyable narrative of frank human passion told against a background of tropical tempests, snow-capped peaks menacingly hidden by fog and airplane thrills unequalled since the memorable "Clinging Zero."

Grant and Miss Arthur, two of Hollywood's greatest stars, appear for the first time together in a motion picture. Richard Barthelmess returns to the screen after an over-long absence. Rita Hayworth and Thomas Mitchell are also featured in "Wings" which features such other well-known players as Sig Ruman, Noah Berry, Jr., Victor Kilian, Allyn Joslyn, and John Carroll.

PLANES OVER HOLLAND
THE HAGUE, Feb. 22 (Reuter).—Dutch anti-aircraft batteries opened fire on foreign planes of unknown nationality near Den Helder during last night, it was officially announced.

The newspaper assumes that the German cargo boat Lahn, which recently loaded coal and left ostensibly for Buenos Aires, will act as the supply ship for the pocket-battleship.

SOLUTION NEXT ISSUE

With the rupture of negotiations, however, it was no longer proposed to allow the Germans to release individual cargoes, where it suited them and it was necessary to take such concerted legal action in selected cases as would convince the Germans that they would be wise to make an agreement for a general release.

ARGENTINA & CHINA:

Diplomatic And Commercial
Treaty Is Foreshadowed
In Y's Men's Club Talk

The early completion of a diplomatic and commercial treaty between the Argentine Republic and China was foreshadowed by Mr. Ramon M. Lavalle, Argentine Consul in Hongkong, when he addressed a large gathering of members of the H.K.Y.'s Men's Club, at their weekly tiffin meeting, at the St. Francis Hotel yesterday.

"Although Argentina and China are a great distance apart, they can be brought closer together by sympathetic action," said Mr. Lavalle.

CLOSER RELATIONS

"It is my purpose here to serve both countries, to bring them together in business as well as in cultural affairs, and to put into effect, for the first time, a diplomatic and commercial treaty between Argentina and China; to offer here our goods and to carry to my country the products of China."

"There are not any distances or obstacles which cannot be solved. If behind them rest a strong and good wish. I hope that one day Argentina will be as popular in China as any other country."

NO ENEMIES

Introducing his talk with a geographical picture of Argentina and the growth and development of the young republic, Mr. Lavalle said, in part:—

For over hundred years my people have been working and struggling in order to build up a country based in justice, peace and liberty; and today we can say with pride that we have fully succeeded in doing so.

Argentina has no enemies. As a State she is invariably neutral in all wars and international problems; however, more than once in the League of Nations and International Congresses, and elsewhere once and again, we have strongly condemned all forms of aggression, whatever the pretext and whoever the aggressor is.

NEW INDUSTRIAL
HOSTEL FOR
WOMENOpened By Lady
Northcote

"It is said that education is the real solution to all social evil. If that is true, I think the Y. W. C. A. have done a lot to the furtherance of this solution. Judging by the way the Y. W. C. A. progresses, I am sure this centre will be followed by many others," remarked Lady Northcote, yesterday at the opening of the new Y. W. C. A. Industrial Girls' Service Centre yesterday at No. 143, Tam Kung Road, Kowloon City.

Lady Northcote was welcomed to the new centre by Mrs. Nancy L. Gockchin, who, in a short address of welcome, recalled the part played in the Y. W. C. A.'s financial campaign last year by the Colony's First Lady.

"Lady Northcote has given the Association much support, not only in spirit, but in actual deed," Mrs. Gockchin said. "During our financial campaign last year, as a result of her energetic appeals to the public by broadcasting and etc., the Y. W. C. A. succeeded in securing a number of valued supporters who had not given us their support before."

Mrs. Lam Woo presided and the Very Rev. J. L. Wilson Dean of St. John's Cathedral, also spoke.

For fifteen years the Hongkong Y. W. C. A. has carried on work among factory women and last year opened two industrial hostels—at Causeway Bay and at Wan-tai.

LIVING EXPENSIVE

The growing importance of Kowloon City as an industrial district has drawn thousands of women workers to that area; living conditions are crowded and expensive—just for the privilege of occupying a bed, along with three others, a worker must pay \$5 a month. This Y. W. C. A. hostel will give a bed—a whole bed to oneself—for \$1.50 a month; and by working co-operatively the girls can provide themselves with meals at \$3.50 a month; so that for less than \$5 a month the girls can find food and lodging in a Y. W. C. A. hostel.

Seven industrial centres—three of them with hostels—provide club and social activities, educational classes and reading corners.

A representative of the Industrial Clubs of these centres, Miss Tse Wai-hing, President of the Inter-Club Council of Y. W. C. A. Industrial Club, expressed the thanks of the industrial girls to all who participated in this opening ceremony.

THOSE PRESENT

Among those present yesterday were the Very Rev. J. L. Wilson, Lady Pollock, Mrs. Ma Ying-hui, Miss N. E. Elliott, Mrs. G. S. Kennedy-Skippon, Mrs. Ma Wing-chuan, Miss W. I. Griffin, Miss Alice Kwok, Miss Yip Sau-ying, Miss Wong Yuk-mon, Miss S. L. Hollis, Miss Cheng, the Rev. Edward Lee, Miss Choy Wai-han, Mr. and Mrs. G. A. Goodban, Mrs. Tung, Miss B. M. Pope, and Miss Shui Tak-hing.

BRITISH WOMAN'S BRAVERY
AT POINT OF GUN TOLD
AT CENTRAL MAGISTRACY

HOW MRS. ESTALL, WIFE OF WARRANT OFFICER ESTALL, BRAVED THE SITUATION AT THE POINT OF A PISTOL and jumped to disarm a robber who had just committed a theft, was told at the Central Court yesterday.

The alleged robber, Lau Po-lor, alias Paul Lau, 17, residing at No. 5, King Shing Street, who was apprehended by three soldiers, charged before Mr. R. Edwards with the larceny of two silver chains and two religious medallions.

Possession of arms and ammunition;

Shooting with intent to maim, disfigure or disable Mrs. Estall, and

Shooting with intent to prevent lawful apprehension.

Inspector C. H. Goodwin said that about 10 a.m. on January 29 Wu Lin-ho, amah employed by Mrs. Estall was working in the backyard in house No. 2, Warrant Officers' Quarters, and when she had finished, she returned to her room and found the defendant sitting there. Mrs. Estall came in by chance and questioned the defendant. She then searched Lau and found two silver chains and

two medallions. Mrs. Estall then sent her daughter to summon a police officer, while she kept defendant in the kitchen.

"HOLDING SOMETHING"

"After my daughter had gone we waited for a second," said Mrs. Estall in the witness-box. "The defendant asked me to let him go. I realised that he was holding something at me which looked like the barrel of a gun. I said 'no'. I jumped and grabbed his arms. There was a little struggle during which there was an explosion. I then realised that what I saw must have been a gun."

L/Cpl. Lane, Bandsman Marshall and L/Cpl. Cairns caught the defendant.

Following further evidence, the hearing was adjourned until this afternoon.

TRAFFIC ACCIDENTS
IN THE COLONY

In the Colony of Hongkong, including the Island, Kowloon and New Territories during the week ending at 8 a.m. on Saturday Feb. 17, there were altogether 87 traffic accidents as the result of which 2 persons were killed and 26 persons were injured.

Of persons killed, a 9-year-old boy was knocked down and killed by a bus while crossing the carriageway, and a Chinese female, age 25, was drowned when the lorry on which she was a passenger, skidded and went over the sea wall.

Of persons injured, 17 were pedestrians, who were crossing the carriageway and were struck by vehicles.

Of 87 accidents, 44 were collisions between vehicles; 29 were collisions between vehicles and pedestrians; 14 accidents were due to other causes.

The Chinese Chamber of Commerce held their monthly Executive Committee meeting yesterday. Mr. Philip Gockchin presided.

Lady Northcote, wife of His Excellency the Governor, speaking at the opening of the Y.W.C.A. Industrial Girls' Service Centre at No. 143 Tam Kung Road, Kowloon, yesterday afternoon.

"ALTERNATIVE FRONT"

FOR THE PAST TWO HUNDRED YEARS

THE BALKANS and the Baltic have become decisive theatres of European history at every juncture at which Russia has held the centre of the continental scene. Thus, when Charles XII of Sweden marched against Peter I, he allied himself to Turkey and conducted his campaigns alternately from Stockholm and the Bosphorus. The lands of the Lower Danube witnessed numberless clashes in the conflict between the Ottoman and Romanoff Empires. In the Crimean War, Russian interests clashed for the first time with those of Britain and France, who enlisted Turkey on their side. After that war, the conflict continued on a diplomatic plane, with the map of the Balkans as the battlefield.

THE RUSSIAN REVOLUTION

of October 1917 substituted for the old struggle of imperial interests the conception of "checking the spread of Bolshevism" through armed intervention and the "cordon sanitaire." Russia's Balkan and Northern frontiers witnessed the genesis of numerous "White" armies, and, when it became clear that the Russian people would have none of them, one by one, their final retreat. One such army was commanded by General Mannerheim who, after failing to establish a fanciful Northern Kingdom of "Finland and Estonia, including Petrograd" succeeded, in suppressing the domestic revolutionary forces in Finland's present territory, this suppression being accompanied by the slaughter of 70,000 prisoners. Other battles were fought in Poland, Rumania, taking advantage of Russia's pre-occupations with the several civil wars then raging, annexed Bessarabia. The suspension of hostilities left in its wake the famous "cordon sanitaire" of small states, designed to isolate the Soviets from Europe, and notably from post-Versailles Germany, then itself in the grip of a revolutionary crisis.

THE OCCUPATION of what was once Polish White Russia and the Polish Ukraine broke the first breach in this "cordon sanitaire," the establishment of naval bases on the Latvian and Estonian coasts for the second, and the hostilities in Finland are making a third.

ALLIED COUNTER-ACTION, true to tradition and geographical imperatives, is being effected through the Baltic and the Balkans. The assistance to Finland, the concentration of troops in the near-East, and Turkish tours of Generals Wavell and Weygand are all part of the same picture.

FOR THE INTERESTS of the war against Germany, the rapid materialisation of a second front is unfavourable and dangerous. Anti-Russian action by the Allies would throw the Soviet Union out of its present non-too-warm neutrality into an outright alliance with the Reich. In the Far East, it would force the Allies themselves into the position of seekers for the favour of Japan, a country which has long had as its sole ambition their elimination from the Pacific seaboard.

DANISH SHIP LAUNCHED AT KOWLOON DOCKS

Continued from Page 1

Throughout their history the Dock Company have built internationally, which I think is as it should be. For when Hongkong was taken over by Britain, the Proclamation read out at the time announced that there would be equal opportunity for all nations to trade. The Colony has faithfully lived up to this promise. She is still one of the few oases of free trade in a world-wide desert of nationalist protection, and while of course we like to think that her success is mainly due to British and Chinese enterprise, we could not have prospered as well as we have for close on 100 years had not "equality of opportunity for all" been our constant watchword.

INTERNATIONAL POLICY

I feel that it is right and proper that the Dock Company, as the pioneer company of our kind in the Colony, should continue its international policy. In the immediate future, of course, our output must be principally, if not exclusively, British, but we look forward to the days when common sense and sanity will have returned to this mad world, and convinced all nations that equality of opportunity for all is the only foundation upon which a lasting world peace can be built. May this ship, built for a friendly neutral nation, play a useful part in bringing about the harmonious end we all so fervently desire.

MR. J. H. JESSEN

Expressing his thanks on behalf of the owners, Mr. Jessen said, in part, of the many ships built by our Company for the China Coast, the one just launched is the first to be built in Hongkong. I am, however, far less responsible for this than Mr. Dodwell would have you believe. It was the greatly increased technical efficiency of the Dock Company and the confidence in Mr. Cock and his staff that influenced Mr. Jessen to build this ship here.

We also believe that it is good policy to build, invest and spend where you earn, and in this respect Hongkong is the place for us. I am particularly glad that this ship, named after my father, is built in Hongkong, for it was here that he spent many happy years in his younger days. In fact, ever since my grandfather visited Hongkong in a ship of the same name, Hongkong has played a big part in our work and lives. I hope that one day my son, who was also born here, may represent the fourth generation and attend to the building of the varieties of ships that, in spite of Mr. Dodwell's encouragement, his Father had to leave undone.

"Ladies and gentlemen," Mr.

Jessen concluded, "I will now ask you to drink to the prosperity of the Hongkong and Whampoa Dock Company."

MR. E. COCK

In a few appropriate words, Mr. E. Cock thanked Mr. Jessen for proposing the toast to the Dock Company, and wishing Mrs. Jessen health and happiness, handed her a memento of the occasion.

PUPPET MAYOR OF SHANGHAI TO BE SACKED?

SHANGHAI, Feb. 22 (Reuters)—It is rumoured in well-informed circles that the Mayor of the City Government of Greater Shanghai, Fu Si-chen, may be deprived of his office in the near future, according to the China Press.

It is stated that Dr. Chi Ming-yi, Secretary-General of the Orthodox "Kuomintang" and Wang Ching-wei's brother-in-law, may succeed. The latter went to Nanking and returned with Li Ku-chun-chih, the head of the "Reformed Government," on Feb. 22.

SWEDEN PREPARED WITH MEASURES OF RETALIATION: NAZI DEMAND REJECTED

STOCKHOLM, Feb. 22 (Reuter).—It is learned that Sweden has rejected the German demands that Swedish ships should cease operating into Allied ports. It is intimated that Sweden is prepared with measures of retaliation in the event of Germany carrying out her implied threat.

Since the beginning of the war, Sweden has lost by torpedoing or mines 32 cargo steamers aggregating 64,000 tons, the Swedish Foreign Minister told Parliament yesterday in reply to an interpellation.

He said that 228 Swedish people had perished and 15 were missing.

Seven ships for certain had been sunk by German U-boats, he said, and the tonnage lost by submarine action represented 26.6 of the total tonnage.

DESTINATIONS

One and one-third of the tonnage lost by submarine action, was destined for Britain. The rest was bound to neutral countries.

Fifty three per cent. of the tonnage lost was playing between neutral ports.

The Foreign Minister stated that to their knowledge no Swedish ship had been sunk while in British or French convoy.

SUBMARINE WARFARE

He recalled the principles established in the submarine warfare, and said that contrary to these principles, their ships had been torpedoed; although they had not refused to stop or undergo examination.

The Foreign Minister drew a

distinction between the reaction of neutral countries to what he described as violations on the open sea.

He said that in the former case a neutral country had every right to take every possible measure to oppose violation, but in the latter case direct measures were scarcely possible owing to the danger of involving neutrals in war.

INDIRECT PRESSURE

Measures of indirect pressure against violation depended on circumstances, he said.

Sweden took these possibilities into consideration in trade negotiations with belligerents.

The whole problem would be discussed at a meeting of the Foreign Ministers of the Scandinavian countries at the end of the week, he announced.

NOTE OF CONFIDENCE

STOCKHOLM, Feb. 22 (Reuter).—The Parliament here yesterday gave the Prime Minister an expression of confidence in his foreign policy.

Decisive Moment Has Arrived For Sweden

STOCKHOLM, Feb. 22 (Reuter).—The Committee for the Freedom of the North has sent a petition to the Swedish Government stating: "If Finland perishes, Sweden's own life is threatened. The decisive moment has arrived."

Increased Expenditure In Japan

TOKYO, Feb. 22 (Reuter).—The expenditure of the Japanese Government for 1939 amounted to four times that in 1937, the year in which the China incident started, according to the Finance Ministry. In 1937, Government disbursements totalled ¥1,285,088,000, in 1938, ¥4,754,387,000 and in 1939, ¥3,334,282,000.

BILLS PASSED

The Lower House at the plenary session today unanimously passed the Bills for the budget of approximately 10,300,000,000 yen for the coming financial year, which dates from April 1. The Bills were passed without amendment.

The budget now goes to the House of Peers where the examination of the various bills will command the attention of the nation which so far had been concentrated on the budget interpellation in the Lower House.

CONSCRIPT DECREE MODIFIED IN FRANCE

PARIS, Feb. 22 (Reuter).—The Government decided in a decree to call up fewer men in the next batch of conscripts than was originally intended.

The next call-up for land and air forces will comprise only three months of the 1919 class.

This modifies the decree issued stating that the call-up would cover six months of the 1919 class.

PARIS, Feb. 22 (Reuter).—France is ready to take strong measures with Britain for reprisals if Norway does not protect her waters from belligerent use. It was officially announced in Paris.

He said: "No fact should give us more pride and quiet confidence in the justice of our cause than that the peoples of the colonies are eager to share with us every hazard and danger of war."

CHAMPIONS OF LIBERTY They are not self-governing and they are still under our rule. They are small communities which might be excused if they shunned the right.

"It is significant, indeed, that they, who have experience, of us as rulers, recognise us instinctively as champions of the liberty of small peoples."

Finns Deny Capture Of Koivisto: Attacks Mannerheim Line Still Continued By Russians

HELSINKI, FEB. 22 (REUTER).—HEAVY SNOW IS FALLING OVER THE ISTHMUS, HOLDING UP OPERATIONS AND BRINGING A WELL-EARNED RESpite TO THE FINNISH FORCES MAN- NING THE MANNERHEIM LINE.

Finnish quarters meantime discredit the reports which have been circulated announcing the capture by the Russians of Koivisto Fortress, which controls the Gulf of Finland, twelve miles from Viipuri.

U.S. Entry Into The War?

WASHINGTON, February 22 (Reuter).—According to a Moscow Radio announcement received here, Russia believes that the impending European tour of Mr. Sumner Welles is a prelude to the entry of the United States into the war.

Just before Mr. Welles left, it is learned here, Pres. Roosevelt received word that the German Government was willing to enter on peace negotiations now, but was also prepared to intensify the war and reduce Europe to a shambles if the Allies want to go on fighting.

MEDIATION IN FINLAND

BRITAIN HAS NO AUTHORITY TO INTERVENE

LONDON, Feb. 22 (Reuter).—In the House of Commons yesterday, Mr. E. Shawcross (Lab.) asked whether Mr. Chamberlain would consider an approach to the League of Nations or President Roosevelt with a view to offering mediation in the Russo-Finnish dispute.

SOVIET REJECTION

Mr. F. A. Butler, who replied, recalled that mediation of the League of Nations was offered on Dec. 12 and this was accepted by Finland, but rejected by the Soviet. It was open to the Finnish Government and the Soviet at any time to invite, or accept, mediation of any third party, but His Majesty's Government had no authority to intervene between a third party and two belligerent Governments.

Compulsory Savings Scheme

LONDON, Feb. 22 (BWS).—Speaking in London yesterday, Mr. J. M. Keynes, the eminent economist, introduced further proposals into his compulsory savings scheme. He adopts the principle of family allowance and suggests five shillings weekly for each child under fifteen years. Those funds accumulated under what he terms "deferred pay" are to be deposited with approved societies, trade unions and similar working-class controlled societies as well as the post office and savings banks. He suggests repayment to be made after the war out of the proceeds of capital levy.

FORMIDABLE CHALLENGE

Commenting on the revised scheme, the Manchester Guardian describes it as "an extremely formidable challenge" and thinks it has far greater attractions than the scheme first produced.

After remarking the object is to bring about equality of sacrifice, which was absent in the last war, and to avoid inflationary conditions after the editorial says, "In virtue of Mr. Keynes' proposal it does bring together a series of bold devices which carry us beyond financial expediency and give workers something to work for and to look forward to a more equitable human society."

The paper concludes that it will probably be found that bankers and economists, who looked on the first version with some favour, will be frightened by the second. It is not the boldness of which the British people are afraid.

It is asserted that none of the Finnish second line positions, to which they retreated last week have been penetrated by the Soviets and reports of the fall of Taipale, at the other extremity of the Mannerheim line, are equally false.

SEVERAL ATTACKS

Several attacks have been launched at these two critical points, but all have been repulsed. The Russians continue their attempts to relieve the 15th Division trapped in the Kuhmo Sector, but reliable reports indicate that the effort is now in vain as the Division has been virtually annihilated and hundreds who have not fallen to the bullets of the Finnish sharpshooters, have perished of cold and famine.

FINNISH CLAIMS

HELSINKI, Feb. 22 (Reuter).—A Finnish communiqué reports that there were more Soviet attacks in the Karelian Isthmus and claims that the attacks were repulsed with heavy Soviet losses and that numerous tanks were destroyed.

The Finnish Air Force effected reconnaissance flights behind the enemy lines several times and bombed enemy troops concentrations. In the course of air battles seventeen enemy planes were shot down.

HUNGARIAN FORCE

PARIS, Feb. 22 (Reuter).—About 1,000 Hungarians, the first contingent of a force of 10,000 who volunteered to fight for Finland arrived here today.

The Paris Post states that they are leaving tomorrow for London. Most of them are ex-servicemen, including some officers.

The Commanding Officer said: "While crossing Yugoslavia and Italy, we received an extremely friendly welcome."

WILL RUSSIANS KEEP PROMISE TO PEOPLE?

HELSINKI, Feb. 22 (Reuter).—The Russians have another day in which to defeat the Finns if they are to keep their promise to the Soviet people.

Russian newspapers previously declared that the Soviet troops would march into the port of Viborg to celebrate the birthday of the Red Army tomorrow.

The Finns today are holding firmly to the line along the Isthmus to which they have withdrawn by the heavy Russian offensive which is expected.

It seems that the claim by the Russians that they have occupied Koivisto is more or less confirmed but the island fortress is still in the hands of the Finns.

Count Ciano To Welcome U.S. Peace Envoy To Europe

ROME, Feb. 22 (Reuter).—The Italian Foreign Minister, Count Ciano, is going to Naples to meet Mr. Sumner Welles, President Roosevelt's peace envoy, on board the liner Rex on Sunday. He will probably accompany Mr. Welles to Rome by train. A Government dinner has been arranged in the visitor's honour at the Villa Madama, where Mr. Chamberlain and Lord Halifax stayed.

According to the tentative programme, Signor Mussolini will receive Mr. Welles on Monday, after which Mr. Welles will proceed to Berlin.

No arrangements have been made for an audience with the Pope, but it is expected that Mr. Welles will discuss world politics with the Pope on the conclusion of his tour of the European capitals.

By special permission of the Pope, the ceremony of Mr. Myron Taylor, presenting his credentials will be filmed. The ceremony will take place early in March.

JOAN BENNETT IN EXCELLENT NEW COMEDY- ROMANCE

Joan Bennett, as a dark-haired beauty, is even more vivacious and alluring than as a blond, and in Hal Roach's new comedy-romance, "The Housekeeper's Daughter," the famous star appears for the third time in her screen career as a true brunette.

AN ACCIDENT

It was an accident that helped Joan to discover that she was a completely different screen personality with raven tresses. In her recent picture "Trade Winds," the story compelled her to dye her hair as part of a disguise, and the result was so striking that she decided to retain her dark hair. "For the first time I feel completely sincere," she said.

Released through United Artists, "The Housekeeper's Daughter," will be shown at the King's Theatre from Sunday. There was a special preview for the press yesterday.

K. M. A. Barnett beat B. S. Litvin in the only Colony Chess Championship Tournament match played last night. The other three matches on the evening's programme were postponed and will probably be played off on Tuesday.

1850 & 1912 INSPIRATIONS

Military Line For Hats — Three Groups —

IN THE WORLD OF MILLINERY, the military trend will be pronounced, and because of this hats will necessarily be modelled on more severe lines. The doll's hat, so popular now, will be sacrificed on fashion's pyre, and from the ashes of this mode will rise hats which swing back to 1850 and 1912 for inspiration.

THUS, HAT FASHIONS can be divided into three groups—
The military version for dress and sports occasions;

Early Victorian styles for late afternoon and cocktail wear;
And those which bear the stamp of 1912 for tailored town hats.

Hats To Tempt:

WITH SIMPLICITY the keynote, they are concentrating on making hats elegant and becoming. It is essential that every hat should be perfect, as in wartime most women feel they must practise economy, and it is only when tempted with an alluring style they will be persuaded to buy.

Sports hats have high crowns, tapering slightly, set above medium-wide brims.

This theme was portrayed in a beautifully feminine hat with a high soft ruby red suede crown which linked perfectly with a clouded navy felt brim. The only trimming was a narrow band in matching felt.

Long Snoods:

THE LONG HANGING SNOODS featured on hats of the Bear Geste type, are particularly suitable. When the winds blow the wearer of one of these hats will have no stray wisps of hair to cope with.

To illustrate the smartness of this style, a model has been designed in navy felt combined with a sage blue stoken crepe snood.

The felt is fashioned into a tiny wedding ring shape, with the snood sweeping low at the back to conceal all the hair.

At the cocktail hour gay and fanciful trimmings will be mounted on 1850 hats. Three of the new shapes for late afternoon wear are depicted above.

Military Trimmings:

SOMETIMES a suggestion of the military influence is given to hats through the trimmings. Such a trimming shaped into a small red velvet shield banded in gold braid was applied to a navy and mulberry three-cornered felt toque.

Heavy cording is another medium which supplies a military air to felt hats. This is shown in a wide-brimmed black felt hat with a softly upturned brim back and front, the entire brim being edged with a heavy white cord. The effect of the cording is strengthened by two cords across the rough white straw crown, linking together the back and front of the brim.

Whipping in the Waistline — Hourglass Figures Fashion's Latest Decree

She bought a little frock one morn,
It was all a frock could be,
But ere night fell, it was useless,
For 't was out of date, you see.

WHILE the verse quoted is an exaggeration, it is nevertheless indicative of the ever-changing whirl of fashion.

Like all seasons before it, this summer too, brings us new styles, new colours and above all, new lines. This latter point is emphasised in the excitingly modern version of "grandmamma's" hourglass silhouette.

18-inch Waist:

Poor Grandmamma! What agonies and tortures she must have undergone to retain her eighteen-inch waist! How she must have wept in the privacy of her boudoir over the eccentricities of her dictator—Dame Fashion.

But in spite of these privations, and although she didn't realise it at the time, Grandma in her day, bequeathed pos-

sibly with one of the most charming and gracious fashions yet recorded, the triumphant return of the hourglass figure.

First Thoughts:

At first thought, this fashion is repellent to most of us, for the very idea of a pinched-in waist and what went with it, is not to be entertained. What of our tennis and golf? What of our swinging in the ballroom and our skating at the rink?

But times change and fashions with them, till today, an hourglass figure does not mean swooning in the ballroom, refusing creamed chicken at the dinner table or the administration of smelling salts to quell an attack of the vapors at the movies. It means instead that all these pleasures may be enjoyed to their fullest.

This snug, nipped-in effect at the waistline owes its reintroduction into society by a famous designer of foundation garments.

Comfort & Line:

In designing these very new types of corsets, an eye has been kept on the most important things required by the women of today. Comfort and line were the two objects which the creator set out to achieve; as can be witnessed, he has succeeded beyond the scope of imagination.

Weighing only a few ounces, these figure reformers are not only a fad of the moment, but have come to grace smart waistlines for as long as smart women wear frocks that mould this focal part of the anatomy.

Several Types:

There are several types of corsets and corselettes included in these collections. Important among them are the "waist pinchers."

Designed for the very youthful figure only, some of these amusing garments are 8-10 inches in depth. They are cut and fitted in such a way as to transform a modern miss into an 1839 debutante.

Worn beneath an evening gown of old world charm with fully gathered skirt, it would be difficult to imagine a more delightful figure!

SCARLET and BLACK JERSEY is worn in June Fretwell's dinner dress, which she wears with a heavy gold-metal belt, which ties in front with a sash of the jersey. The gathered skirt features all pockets and the tailored blouse has short sleeves, padded shoulders and plain round neckline, which is highlighted by links of gold. The M-G-M starlet completes the dinner ensemble with black and gold sandals.

Studio de Luxe was heard racing enthusiastically over what she described as the "most wonderfully coloured photograph" of herself she had ever been able to obtain. Studio de Luxe specialises in colour photography and, as in all their work, their art is beyond criticism. The natural and delicate blend of light and shade effects, combined with the careful positioning and pose of the subject, make Studio de Luxe the perfect portrait.

To try them once is to be thoroughly satisfied.

Alternatively, the hourglass line is equally successful allied with the sleek sophistication of the clinging gown.

For The Matron:

For the matron a new note is added, that of controlling the superfluous inches and at the same time moulding the waistline into near-18 inch proportions and a rounded squareness at the hips.

Another designer has created his models by using a strong, airy net elastic to attain his object. The tailored cut of these garments has its own quota of work to do in controlling the figure.

Lacings and fastenings have been entirely eliminated and are done by the step-in method.

The "pretty" trend which predominates so many of our new season's fashions manifests itself in other articles found in the collections.

Refreshingly New:

Refreshingly new is the advancement of Dirndllettes—waist defining belts with brassiere bodice and flared panties attached.

The "pretty" note which is also carried out in a Bodice Bra expresses a femininity and softness unfamiliar to the slim lines of corsetry. Created for wear under the lovely transparency or organdy and lace blouses which are so much a part of summer, they are made of nude embroidered voile with uplift bustline. A quaint little basque and ribbon threaded lace straps complete a dainty addition to summer underwear.

THE WAY TO EASIER HOUSEWORK

TO PREVENT THE SUN FADING MULTISTRIPED CANVAS SUN BLINDS, DECK CHAIR COVERS OR BEACH UMBRELLAS OR TENTS; soak the canvas for one hour in a mixture made as follows: Grate two medium sized potatoes, cover with quarter a cup of salt dissolved in half cup of vinegar. Allow to stand for half an hour, then strain.

If the blinds are already made and hung, paint the mixture on both sides with a large brush and allow to dry thoroughly before rolling. Treated in this way, striped canvas will be proof against fading by the sun.

A Handy Shoe-Rack:

If you have in your lumber-room an old old-fashioned towel horse it is simple to convert it into a very useful shoe rack.

The old-style towel horse is made with a double row of rails, so all that is necessary is to saw about an inch off the front legs to make the whole thing tilt forward slightly. The shoe heels will then rest on the back rail, while the toes slant down over the front rails.

Nail or screw each end of each towel stick to a strong piece of wood about four inches long—then nail or screw these at a slight angle to the uprights of the towel horse. This will give a double row of rails.

Even if you have no towel horse, it would be a simple matter to make a frame of this description. Placed against the wall, under a narrow shelving, it could be hidden from view by hanging a gay curtain from shelf to floor.

Polished Tables:

Calls for help often come when scratches or heat or water marks appear on wood furniture. But the beauty of new furniture can always be preserved if it is cared for regularly.

Provide guests with coasters for iced drinks, and those white rings will not appear. Use heat pads under hot casseroles and dishes, and your dining-room table will keep shining and new. Watch for that pottery vase with its unglazed base, which may scratch the table and allow moisture to soak through and leave a ring. A coaster under the vase will prevent this marring.

The Cure:

So much for preventives; now here are a few cures.

Washing Dainty Lingerie

IT IS ALWAYS WISE to make a point of washing your daintiest clothes at home. If you can. Provided you use the proper things, they are easily washed, and certainly home-washing prolongs their life.

You must be careful, however, not to use hard water or alkaline soap. Rain water, if available, heated so that the hands can bear it comfortably, is best.

Alkaline in soap acts on the lime which is in all water and leaves a lime-scrum which sticks to the threads of fine fabrics and takes the sheen off.

Arrange Your Flowers

ALL simple old-fashioned flowers, such as stocks, wallflowers, look well in inexpensive earthenware jars and bowls. See always that your jars or bowls are tall enough and wide enough for your flowers to get plenty of water.

Roses, carnations and many flowers, with pretty foliage and stems, look very attractive in glass, but be sure that you keep the glass and the water clean and clear.

If you have a brass or copper jar or bowl, don't forget how lovely marigolds, tea-roses, and all vivid-colored flowers look in them.

way occasionally there will be no further bother with blocked sink.

Household Replacements:

The replacement of glass and china when it is broken is an economy. This obviates the necessity of buying a full new set from time to time.

The wise housewife will buy her dinner and tea sets and glassware in a stock pattern, so that when breakages occur she can buy matching pieces. Regular attention must be given to the linen press and personal clothing of the family.

A careful check of articles sent to and returned from the laundry should be kept, and the plan of putting all linen and lingerie at the bottom of 12 pins when returned should be observed, so that each item may be used in its third time, preventing the premature wearing of one or two pieces.

Picnic Tips:

During the school holidays many families make a practice of having frequent picnics to seaside or hills. Here are a few tips, which may be helpful when packing the hamper.

Make a washing cover for the picnic billy and fasten up the side with press studs. This will prevent hands and picnic box from soil from the billy. No keep the butter firm when picnicking, put it into a wide-mouthed jar and push a piece of ice down the middle of the butter. The ice will not melt and the butter will be nice and firm.

If you use a thermos flask for tea, fill it with boiling water and take a small bottle of extra strong tea. Then each member of the party can have tea the strength they like it—strong, weak or medium.

That Blocked Sink:

If the run-away from the sink is blocked it may be possible to clear the pipe by the following simple method—

Cut the top off a rubber ball (a tennis ball will serve very well), then with about 10 inches of water in the sink, place the ball over the plug hole. Press the cut part of the ball in and out of the hole until a good suction has been created, and you will find the water will soon run away.

If the pipes are cleaned in this

After ruling quiet, the market eased on outside liquidation and lack of interest.

NEW YORK COTTON: There has been further Bombay selling and scattered March liquidation. The mills continue the curtailment of textile production. Spots were quiet.

NEW YORK RUBBER: The scarcity of near shipment offerings from the East has a steady influence.

CHICAGO WHEAT: Recent snows are reported to have been inadequate to protect against subsequent sub-zero temperatures and the substantial continental demand for U.S. wheat reflects poor crop prospects both in Europe and Argentina. The Administration's intention to secure "parity" prices for agricultural products is a long range price-sustaining factor. The parity prices for wheat is \$1.13.

NEW YORK STOCKS: Previous close, 148.65; Today's close, 148.34; Change, off, 31.

BOARDED SHIP WITHOUT GETTING PERMISSION

Tsang Wai Fan, a 25-year-old married woman, was charged before Commander G.F. Hole, at the Marine Court yesterday, with having boarded a ship in the harbour without the permission of the master or an officer of the vessel. She pleaded guilty and admitted a previous conviction for a similar offence about three months ago.

In sentencing her to a fine of \$30, or, in the alternative, two months hard labour, the Magistrate warned her that should she be brought before him again he would not give her the alternative of a fine.

Children Ailments: The Danger Of Infection

(FROM A CORRESPONDENT)

In my younger days the belief was very general that every child would suffer at some time or another from numerous ailments, such as measles, chicken-pox and mumps. Many parents used to regard these as unpreventable and so took no precautions against their children becoming infected. It is known nowadays that there is not the slightest reason why the kiddies should contract these complaints.

Children do, however, come into contact with infection of different sorts and they are liable to be affected. This is particularly true when they are a little below par, because at such a time their power of resisting infection is low. At this time of the year there is always a chance that the kiddies become pale and thin and listless and generally out-of-sorts.

PROPER DIET

One of the most important factors in the maintenance of the children's health, as it is in the case of older persons, is the provision of an adequate and proper diet. Every individual part of the body depends upon the food we eat day by day for those restorative elements needed for their upkeep, for those substances required for the correct functioning and for those special nerve-feeding elements which mean all the difference between abundant health and "below-par-ness". It is not suggested for the moment that your children do not get plenty of high quality food, because I am certain you take particular care to see that they do. But it is not quite so certain that their diet is altogether right in that it provides every nutritive element. If you rely solely upon the ordinary foods in general daily use there is every chance that the diet is deficient simply because these foods are deficient in themselves.

SPECIAL FOOD

The best advice that can be given is that a special food should be introduced into the daily diet. The food I have in mind is that delicious tonic food beverage, Ovaltine—the food beverage which is made up to a quality and not down to a price. Why not make Ovaltine the mealtime beverage? You will soon see what a difference it makes to the kiddies' health and give them freedom from those troubles to which many children are prone.
